Problem-Solution fit canvas 2.0

Purpose / Vision

Define CS, fit into CC

1. CUSTOMER SEGMENT(S) — CS

Who is your customer?
i.e. working parents of 0-5 y.o. kids

The big industry maintaing peoples who are wants to predict the weather.

6. CUSTOMER CONSTRAINTS — CC

What constraints prevent your customers from taking action or limit their choices of solutions? i.e. spending power, budget, no cash, network connection, available devices.

Maintanace is most impotant while running the turbine

5. AVAILABLE SOLUTIONS — AS

Which solutions are available to the customers when they face the problem or need to get the job done? What have they tried in the past? What pros & cons do these solutions have? i.e. pen and paper is an alternative to digital notetaking

Doppler radar , Satelite data,Automated surface absorbing system,super computer and Radios ondes

Explore AS, differentiate

Focus on J&P, tap into BE, understand RC

2. JOBS-TO-BE-DONE / PROBLEMS — J&P

Which jobs-to-be-done (or problems) do you address for your customers?

Communication between the wind and turbine.
This paper aim is to prevailing the methods to predict the weather .

9. PROBLEM ROOT CAUSE — RC

What is the real reason that this problem exists?

If the climate changes during the time rain,the turbine has stopped or else damaged.In the case,we design to calculate the energy output using turbines.This is the backstory of creating turbines for weather prediction.

7. BEHAVIOUR — BE

Easy to use .
can be able to respond quickly.
Able to produce High energy output.

Focus on J&P, tap into BE, understand RC

Identify strong TR & EM

3. TRIGGERS — TR

What triggers customers to act? i.e. seeing their neighbour installing solar panels, reading about a more efficient solution in the news.

If any high level business people use this device make the others to use this device.

Type your text

4. EMOTIONS: BEFORE / AFTER — EM

How do customers feel when they face a problem or a job and afterwards?

No problems may we programed to the machines it never get colopsed.

10. YOUR SOLUTION — SL

If you are working on an existing business, write down your current solution first, fill in the canvas, and check how much it fits reality.
orking on a new business proposition, then keep it blank until you fill in and come up with a solution that fits within customer limitations, blem and matches customer behaviour.

An app is built which uses this model. This app enables monitor wher we is.
which get converted to human-understandable

8. CHANNELS of BEHAVIOUR — CH

8.1 ONLINE
What kind of actions do customers take online? Extract online channels from #7

The specially abled people need to access the device.

NE
of actions do customers take offline? Extract offline channels from #7 and use them for customer development.

Store The datas and energy and transfered where you need.

Extract online & offline CH of BE
